

Sustainability. Made by

Dorint

Kongresshotel
Mannheim

We support sustainability and climate protection!

Housekeeping measures

- Washing changed at our guests' request or every two days (towel change programme)
- Cleaning service at our guests' request
- Soap and shampoo in dispensers
- No plastic liners in the waste baskets
- Perlator tap attachments and dual flush buttons for regulating water quantities

Catering measures

- Short transport routes for fruit and vegetables purchased mainly from Baden or the Palatinate
- Regional drinks suppliers
- Organic catering and fair trade coffee offered on request, individual products permanently in the range
- Leftovers retrieved by organic waste collectors and converted to environmentally friendly energy in biogas installations
- No disposable packaging wherever possible
- Dishwashing line at the Congress Center Rosengarten with 35% water savings and heat reclamation systems

General measures

- Exclusive use of biologically degradable cleaning agents
- Waste sorting in all areas
- Wastepaper collected in press containers and collected for recycling
- Heat reclamation systems for reduced energy consumption
- LEDs
- Ventilation systems fitted with frequency converters that adjust the air flow to changing requirements and hence save energy
- Environmentally friendly arrival and departure with the Deutsche Bahn CO₂-free event ticket
- Guest magazines as ePaper instead of print editions

You'll be back.
